How to Emulsify Essential Oils

- 1) Add the Aroma Essential Oils to the Aroma Oil Emulsifier in the bottle provided.
- 2) The Aroma Emulsifier bottle comes with 2.5ml. Add 50 drops of Aroma Essential Oils to the Bottle.
- 3) Shake the Bottle containing the Aroma Oil and Emulsifier. Ensure that there is no separation of the Aroma Oils and Emulsifier, allow for some time to allow the bonding of the molecules.
- 4) Add the Emulsified mixture to 1 Gallon of Distilled Water. Shale and allow to stand for 24 hours.
